Will there be a sequel to uncharted lost legacy

Will there be an Uncharted 5? And if so, when can we expect it? Those are big questions in the franchise's fandom at the moment, especially with there being plenty of other activity going on for Nathan Drake.Indeed, there has been a lot of Uncharted chatter of late which should come as no surprise. Not only has the Legacy of Thieves Collection recently been released, but the Uncharted movie is on the way starring Tom Holland and Mark Wahlberg - so it is a great time to be an Uncharted fan.Buy Uncharted: Legacy of Thieves Collection at GAMEAll the talk of the franchise though has led to people to look to the future, more specifically whether there will be an Uncharted 5 - many fans expected us to have a new game this year.It's a fair question with it seeming like the series is bigger than ever, but are there any signs that Uncharted 5 is on the way? Here is what we know so far!Will there be an Uncharted 5?The developers at Naughty Dog do not seem against the idea of making Uncharted 5 at some point in the future. But at present, they haven't announced any plans to make Uncharted 5 with any sense of urgency.Shaun Escayg, who served creative director on Uncharted: The Lost Legacy, recently said this to GamesRadar: "I think we can say for certain that we can never say never. Yeah. Uncharted is a franchise we love – that the studio loves. I love, and Kurt [Margenau, game director on Lost Legacy] loves. It's a world we want to see more of. So I can certainly say that."This statement gives us reason to hope that Uncharted 5 could come into existence at some point in the future, but it certainly doesn't seem like a priority project at Naughty Dog right now (unless they're being very coy with us). We wouldn't expect to see an Uncharted 5 release date on our calendars any time soon.By entering your details, you are agreeing to our terms and conditions and privacy policy. We saw that he lost the love of adventuring - not surprising considering how many times he was nearly killed - and instead started a family and a salvage business. It's as happy an ending as Nathan could have and bringing him back could end up feeling like it ruins what was a solid conclusion.But in the argument for why it will return is something that is hard to ignore - money. The games have made Sony a ton of money and with interest so high in the franchise, we would be stunned if was just left dormant. The main question for us is not if it will be back, but what it will be about. A bit of a time jump and we'll have Cassie Drake ready to pick up where her father left off...We'll keep you posted on all the Uncharted 5 news right here - no matter what the game ends up being called. If it gets announced, we'll update this page!Read more on Uncharted:Follow Radio Times Gaming on Twitter for all the latest insights. Uncharted creative director Shaun Escayg has hinted that developers at Naughty Dog would like to make another sequel in the blockbuster series, saying that it's a "world we want to see more of."As part of an interview with GamesRadar, Escayg offered fans a slight hope that perhaps there could be more to come from the Uncharted franchise when speaking about his thoughts on the topic. "I think we can say for certain that we can never say never. Yeah. Uncharted is a franchise we love – that the studio loves. I love, and [Uncharted: The Lost Legacy director Kurt Margenau] loves. It's a world we want to see more of. So I can certainly say that," explained Escayg.While the creative director didn't share any studio secrets, and certainly didn't confirm that a new Uncharted game is on its way, his comments will have left Uncharted fans hoping that there's a chance the series could make a return beyond remasters. Recent reports indicated that Days Gone studio Sony Bend had at one point been working on a new Uncharted project, and rumours had circulated for some time before that about a new entry in the series. Whether those rumoured projects have continued remains unknown.Past Uncharted games continue to arrive in new forms, however – Uncharted: Legacy of Thieves Collection, which includes remasters of Uncharted 4: A Thief's End, and Uncharted: The Lost Legacy, is due out for release on PS5 tomorrow, January 2, with a PC version to follow.The game includes a variety of graphical updates including a Fidelity mode, which allows fans to play the game on a 4k display at a 30 FPS target, a heightened framerate patch that allows PS4 versions of the game to target 60FPS, and a Performance+ mode, which targets 120 FPS at a 108p resolution. Uncharted: Legacy of Thieves Collection - Direct-Feed Screens [September 2021]While Legacy of Thieves may be the next Uncharted remaster to release it isn't the only Nathan Drake-themed content in the pipeline.
